

Carbon Reduction Plan

Supplier name: Mark Clegg Chilled Food Service Limited

Publication date: 26.09.2023

Commitment to achieving Net Zero

Mark Clegg Chilled Food Service Limited is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline Year: August 2022 to July 2023	
Additional Details relating to the Baseline Emissions calculations:	
This Baseline Carbon Footprint has been calculated using the Green House Gas Corporate Standard 2015 and utilised HM Government's Greenhouse Gas Conversion Factors for Company Reporting 2022. The Carbon Reduction Plan was developed by the East Lancashire Chamber of Commerce, Chamber Low Carbon based on the data presented by Clegg Chilled Food Service Limited.	
Baseline year emissions: 2022	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	80.02 Direct GHG Emissions <ul style="list-style-type: none">• Company Vehicle
Scope 2	14.48 Electricity Indirect GHG Emissions <ul style="list-style-type: none">• Power and lighting, electricity consumption
Scope 3 (Included Sources)	38.59 Other Indirect GHG Emissions <ul style="list-style-type: none">• Water supply and treatment• Fuel and Energy-Related Activities Not Included in Scope 1 or Scope 2

Total Emissions	133.09

Emissions reduction targets

To continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next seven years to 66.54 tCO₂e by 2030. This is a reduction of a about 50%

Progress against these targets can be seen in the graph below:

Carbon Reduction Projects

The 2022 data forms the baseline for the Carbon Reduction plans for Clegg Chilled Food Service Limited.

The following environmental management measures and projects would be considered as part of the steps to achieve our carbon reduction goals 2022 baseline.

In the future we hope to implement further measures such as:

- Establish a "Green Team" across the Company – with a view to suggesting ideas and implementing the carbon reduction plan.
- Improve data collection and management.
- Explore the option of increasing on-site generation of clean electricity using photovoltaic panels with a view to becoming self-sufficient and potentially exporting excess electricity to the National Grid or the neighbouring businesses.
- Ensure that all carbon emission sources have been identified.
- Ensure efficient water usage by changing our taps to more efficient products.
- Review the current purchasing/procurement policy – are AAA rated electrical equipment preferred. Is whole life cost considered when procuring goods and services?
- Explore the option of switching to a "Green Tariff" when renewing your electricity contract.
- Look to use 7-day timers where possible for the use with printers and other equipment that gets left on at weekends if food preservation is not an issue.
- Review all 15 Scope 3 categories for inclusion.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

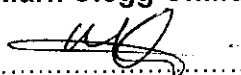

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.

Signed on behalf of Mark Clegg Chilled Food Service Limited:

MARK CLEGG
